An adventure awaits our group when we camp overnight on the USS Lexington. We'll hear stories from the ship's illustrious past – covering topics like kamikaze attacks, the manpower it takes to navigate an aircraft carrier, and being named the “Blue Ghost” by Tokyo Rose herself. The chapters of this history lesson unfold over 11 different levels within the ship, giving our curious minds a hands-on experience that reflects on the sacrifices made by that patriotic generation, builds camaraderie, inspires love of learning, and is just plain fun!

Activities are available for adventure seekers of all ages. The itinerary

includes tours of the ship and its many levels, stories of historical events from her past, a ship-wide scavenger hunt, a movie in the onboard 3D MEGA Theater, LEX ghost stories, supper and breakfast in the original mess hall, bunking in the original crew quarters, an unforgettable flag ceremony and so much more!

We will caravan to Corpus Christi, travel and food during travel is not included in the \$55 fee.

We will be divided by gender in the sleeping quarters. No refunds are available.
